

ERGOMAT OPTIMAL SMOOTH ESD

The ERGOMAT Optimal Smooth ESD mat is an exceptional anti-fatigue mat with electrical resistance of $5 \times 10^6 \Omega$ and an ISO Class 3 cleanroom rating. This durable triple layer mat consists of a smooth, chemical resistant, easy to clean top and bottom layer with a layer of foamed EPDM rubber in between. The foam layer is recessed from all sides of the mat, creating a natural bevel around the perimeter for safety.
